

PERSONAL INFORMATION

Name **ARDITI, ROBERTO**

EDUCATION AND TRAINING

I have got my degree in Engineering from the Technical University of Genova when I was 23 years old.

WORK EXPERIENCE

Actual position Director of Scientific Affairs for SINA in charge of Road Safety. SINA is part of the ASTM-SIAS (Gavio) motorway operator group.

Main issues in the working scope I've been contributing to multidisciplinary groups for the activities in design, works direction and studies for the following fields of the engineering: infrastructures and equipments design, evaluation and analysis of the risk in transports, transport studies and technical/economic evaluations, evaluations of environmental impact, road safety, technical coordination of European projects, studies and implementation in the framework of Intelligent Transport Systems (ITS). I contributed to several Governmental, Intergovernmental and Association Commissions: Italian Government, European Commission, UN-ECE, CETU, ASECAP, etc. In PIARC, I am currently serving as chair of TC of the technical committee for road safety policies.

Activity in the European ITS Platform Since 2016, I am serving as project manager.
